

Name: _____

Getting Paid Word Problems

1. Connor was hired for \$41,533.00 per year. How much does Connor receive per week?	2. Abigail's hourly salary is \$8. If Abigail normally works 9 hours, but today works for only 4 hours, then how much money will Abigail make today?
3. Morgan was hired for \$22,475.00 per year. How much does Morgan receive per month?	4. Sarah earns 48.00 in a day. If a normal work week is 2 days, then what is Sarah's weekly pay?
5. Isabella earned \$126.00 for 18 hours of work. How much was earned per hour?	6. Aaron's hourly salary is \$10. If Aaron normally works a 40 hour week, then how much is normally earned in a week?
7. Ethan's hourly salary is \$8. If Ethan gets to work in the morning at 9 has lunch from 12 to 1, and then works until 5, then how much did Ethan make that day?	8. Chloe's hourly salary is \$8. If Chloe works 4 hours a day, then how much will be earned in a day?
9. Dereck's hourly salary is \$14. If Dereck works more than 40 hours a week, then Dereck gets overtime pay at 1 and 1/2 times the regular hourly rate for each hour worked over 40 hours. Last week, Dereck worked 43 hours. What was the total pay last week?	10. Olivia earns 63.00 in a day. If a month has 22 work days, then what is Olivia's monthly pay?
